

PANDEMIC ALERT PHASE 6

World Health Organization (WHO)

WHO Pandemic Phase 6

Designation of this phase indicates that a global pandemic is under way.

What MorningStar is doing to prepare.

MorningStar Website Releases:

Register on the MorningStar website to receive the latest email notices of new bulletin and video postings.

MorningStar will follow the guidelines of the Federal Response Stages and Local Government

Church and school closings will be determined by the federal and local government guidelines. This information will be posted on the website and the church bulletin.

All Pandemics are not created equal:

Learn the differences between the pandemic types and that the strategies to prepare are not the same. Target your preparedness for the current pandemic. Order the Personal Preparedness DVD by calling: (800) 542-0278.

What You should do to prepare.

Communication

Having accurate information is vital. Be sure to have a wind-up NOAA weather radio and stay tuned to the MorningStar website for the latest information.

Food & Water Storage

Finalize all food, water, medication, and sanitary storage requirements for 60 days. With the potential for runs on stores, you may only have a few days in order to complete this.

Practice Good Health Habits

Wash your hands frequently. Avoid large crowds and close contact with people who are sick. Cough and sneeze into your elbow or tissue. The best defense against disease is a healthy immune system. Order the Personal Preparedness DVD for more information.

I will say of the LORD, He is my refuge and my fortress: my God; in Him will I trust. Surely He shall deliver thee from the snare of the fowler, and from the noisome pestilence. Ps 91:2-3
